Your LTL shipment
doesn't either!

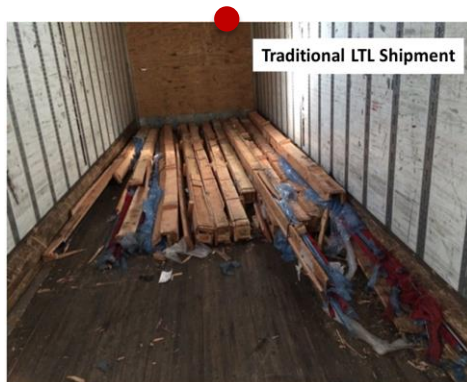

The Strength to Carry Your Reputation™

LTL Shipments

NO BREAK-BULK

- Hercules focus is cross-border (US-Canada) LTL. Many US domestic lanes are also serviced (Inter and Intra-state)
- Our unique “no break-bulk” structure will help to reduce transit times
- Hercules network reduces damage or misrouting
- Traditional hub-and-spoke networks cause shipments to be touched many times. Each touch presents another opportunity for the shipment to sustain damage

The Strength to Carry Your Reputation™

NEW TRAILERS HELP REDUCE DAMAGE

- Effective trailer loading is also an area LTL carriers can reduce damage of products which do not stack or mix nicely in a trailer
- Hercules new trailers have retractable load racking system built into the trailer at 2 foot increments
- This allows pallets to be placed above an odd object below without damage to either item
